EXPERIENCE

FRONT-END ENGINEERING
THE IRON YARD

2015 - 2015

Leet:: Proof of concept for an application that connects users based on overlapping layovers. AngularJS, HTML&SCSS, Bourbon/Neat. Worked with custom Heroku backend developed by Ruby on Rails developers.

The Fox Tail: Restaurant website. Built to specs from an imaginary customer, but given freedom with design. Group project. HTML&SCSS, Bourbon/Neat, jQuery.

Ficlist:: Contacts list with persistent data, hooked up to a simple Heroku server. Backbone.JS, HTML&SCSS, Bourbon/Neat.

Etsy Clone: Clone of an Etsy search page. HTML&SCSS, jQuery, Bourbon/Neat. Pulls from static block of Etsy JSON data.

Surf & Paddle: Pixel perfect reproduction of a screenshot of a blog. HTML&SCSS.

SKILLS

JS, HTML, CSS

Vanilla JS, AngularJS, BackboneJS, Angular Material, Materialize, Foundation, SCSS, Responsive design, Bourbon/Neat, JQuery, Handlebars.

WORKFLOW

Git/Github, iTerm/Terminal, Sublime Text/Atom, Gulp, NPM, Bower.

EDUCATION

FRONT-END ENGINEERING IMMERSIVE
THE IRON YARD

2015 - 2015

Spent 12 weeks shipping code and working with fellow front-enders, iOS, and Ruby developers.

HOMESCHOOL

2006 - PRESENT

I homeschool with good old pen and paper, supplemented with with life experiences and an organic STEAM (Science, Technology, Arts, & Math) curriculum. Currently going into the 10th grade.
